## Scopes of Service

- Construction Representation
- Technology Integration
- Furniture Procurement & Installation
- Commercial Signage
- Office Services Setup
- Move Management
- Decommissioning Services

## Project Highlights:

*The multi-phased relocation effort required the duplication and coordination for several critical work packages. Those work packages included: data cabling, furniture, and move management. Relocation Strategies' ability to communicate effectively with all of the vendors throughout the duration of the project allowed for HIIQ to stay focused on their core business and relocate into their new facility without significant downtime.*
