

PROJECT DETAILS:

- Insurance Brokerage Office
- Renovated Space: 1,000 SF
- 10 Additional Work Spaces
- Timeframe: December 2019 - June 2020

PROJECT SCOPE:

- Architectural Design Consulting
- Construction Management
- Technology Integration Support
- White Noise System Procurement
- Systems Furniture Relocation

PROJECT HIGHLIGHTS:

The client team was looking to expand their existing footprint by renovating a newly acquired adjacent space in order to accommodate their growing team. With the client team consisting of numerous stakeholders all with specific project interests, having a single point of contact for all of the vendors and contractors engaged was key to ensuring no requirements were overlooked through the design, construction and technology integration processes.
