- Construction Representation
- Technology Integration
- Furniture Procurement/Installation
- Move Services & Management
- Office Services Setup
- Decommissioning

## PROJECT HIGHLIGHTS:

Our client team was seeking an elevated visitor experience through the use of modern finishes and technology while maintaining their traditional rustic charm. The numerous trades involved in designing, building and furnishing the new space required close coordination to ensure the vision was realized. The space was delivered on schedule and the move event planning and oversight ensured that users were operational on Day One with minimal downtime.
